

HB100N & HB200PN

- **Physically destroys HD media using four tapered pins**
- **Records process using integrated camera** (HB200PN model)

As used by the NSA in USA

HB100N

- Prevent theft of hard disk data by physically puncturing HDD
- For 2.5" HDD and 3.5" HDD.
- Accurate alignment of a target drive with mounting jig.
- Safety design: The unit does not start an operation unless a target drive is inserted and the front door is shut.
- Quick & Reliable operation
- Compact design.

HB200PN

- In addition to the above features of the HB100N, the HB200PN also features a camera to enable the user to create still or motion pictures of the destruction process for use with certification.
- By linking the HB200PN with a PC or Laptop, various information can be logged and a certificate issued.

Example certificate

– produced with HB200PN model

Model	HB100N & HB200PN
